1. Everything we see happening in the early church must happen in our church.
2. It is more important to think about what God is doing in the church before we think about what we are doing.
3. The early church was a bit laid back.
4. A church where the Holy Spirit is at work is a church where the Bible is open.
5. It's not appropriate for a Christian to own property.
6. The early church is a model of generosity in various areas.
7. If you get all the learning, sharing, praying in place, everything in church will be fine, and automatically you'll have a great church.
8. The Christian faith is very much an individual, personal and private thing.

Think of one area where you have been **challenged** today, and one area where you have been **encouraged**, and pray about it!
